About me

Firstly, I would like to introduce myself. My name is Rafał Schmidt, I am 20 years old, I come from Silesia, Poland, and I have been occupied with designing websites since 2014.

Graphics is fun for me and I always pay attention to every detail while working on a project. All of my knowledge is the outcome of time and effort spent on learning new things and striving to improve my skills. I can easily cope with the challenges that appear, which makes me capable of facing even the most advanced projects.

Currently, I'm working with many companies from the entire country. I had the pleasure to develop a website which is being used by many students countrywide. I am ambitious, open-minded and willing learn new things.
